
CREATES PART TIME LAB ASSISTANT

OVERVIEW

The CREATES lab is a pavement engineering research lab under the Civil & Environmental Engineering department, located at the South Jersey Technology Park. This job will consist of working under the direction of graduate students and project managers to prepare asphalt or aggregate samples for testing, as well as lab maintenance and upkeep. All training will be provided on site, and work hours are flexible, but it is recommended to schedule a minimum shift of 3 hours at a time. Any questions or requests for additional details can be sent to purdy@rowan.edu.

APPLICATION

Please return the application and your resume to Caitlin Purdy at purdy@rowan.edu.
